This is a government fund that will be available for Capital investments, it not a grant but a business loan for those who maybe finding hard to find capital where there is a risk that the high street bank would not consider. It will not be available until early summer however, the encouragement would be that if you might be interested or know people that this would be good for then get the business plans dusted off so that your ready when the money becomes available.

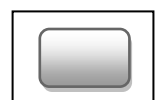

Last week we heard the government announcements that:

£8m investment for the new university of Hereford NMiTE

£2.8m investment fund for the Cyber Security Centre in the enterprise zone in Hereford

We are working hard and trying to apply pressure on the Cabinet members and BBLP regarding the state of the roads and the quality of the work that is being undertaken by the contractors.

There are ongoing conversations as to the road conditions outside of Pontrilas sawmills, including the fact the lines are badly faded and cats eyes not working. BBLP have been out this week clearing the entrance, and concerns as to the condition of the bus stops and kerbsides has been reported as a requirement of work required

3rd March 2017 Good Morning All Doris is now a distant memory, sounds like a line from a song doesn't it. However she has left a number of calling cards in her wake, although the worst of the storm was over by the end of Thursday last week.

We received 3 calls to attend trees this week which were severely damaged by the storm, and giving up the ghost this week and falling into the roads for no apparent reason.

As you may or may not know Herefordshire County Council launched its new website this week. This will enable you to contact them and register an issue like a pothole for instance, is now

24th February 2017 Good Morning all Hope you didn't experience too much disruption yesterday, after "Doris" and her weather bomb.

I must confess we were running here there and everywhere closing roads in preparation for the crews to come and chop them up.

Though many of the calls I was asked to attend were already removed by persons unknown.

The rest of the week has been general enquiries from the customer front desk.

17th February 2017 Good Morning All It's been one of those odd type weeks, busy rushing around juggling lots of issue in the air at once, with all landing on the ground in a disjointed fashion.

I'm sure we all suffer this type of thing from time to time.

What I can say on a positive note is that the crews have been busy around the patch catching up on loads of jobs.

Golden Valley Safer Neighbourhood Team (SNT) Briefing 9th - 25th February 2017

News from the Nick Congratulations to Lucy, who has been successful in her application to join Dyfed Powys Police as a police officer. Her training begins on March 27th, and her last working day with West Mercia will be 10th March.

Lucy joined us in the Golden Valley in November 2015, having already served nine years as a PCSO in Worcester and Ludlow, and she is a valued, hard working member of our team. We will miss her, but wish her every success in her future career.

We have had no reported property crime since the last briefing which is great news - we must be doing a good job One Sunday morning a couple of weeks ago, the team here had a joint operation with the Brecon Beacon wardens and colleagues from the Operational Policing Unit or OPU for short(Tom's new gang!) up in the **Olchon Valley** and **Longtown** areas. We were targeting the scrambler bikes that illegally ride up onto the mountain causing considerable damage, and danger to walkers and wildlife. These individuals have no regard for the law, and in the past have refused to stop for police. They usually have no number plate displayed so it is very difficult to trace the culprits. Three bikes were seen going up onto the mountain at Craswall that morning, displaying no registration plates, but a good description was given by the witness. Later, they were seen by a patrol in the road, presumably having come down from the mountain, and were signalled to stop. One did but his two colleagues decided against it, and strangely when questioned, the one who didn't get away couldn't remember his mates names. The male that was stopped hailed from **Ewyas Harold**, and he was given a ticket for failing to display a registration plate and will have to pay £100. He had the plate in his rucksack which had just broken off apparently!

The O P U spent some time in **Peterchurch** one morning recently along with officers from DVLA and Customs and Excise and stopped several vehicles; two tickets were issued for traffic offences (no registration plate and a

bald tyre), 4 prohibition notices were issued (for vehicle defects that needed rectifying there and then), two drug swipes were carried out and a medical form completed as the competence of a driver was in question.

Scams Carers for an elderly resident of **Madley** reported to us that an unknown male had cut down a tree for the resident and she had written him a cheque for £1000. Luckily, the bank did not cash the cheque as they didn't recognise the signature - the handwriting had deteriorated from the one originally given to the bank and they did not match.

An officer attended and advised the carers to remove all money and cheque books from the premises for safe keeping, which was just as well as there was another call to the same property on Friday 24th February. The carers arrived and found the kitchen had been ransacked; the resident said two men had called for money and when she said she didn't have any, they began searching for some. Enquiries are ongoing, there is a suspect for this.

Please ensure that elderly and vulnerable members of your family and community are warned against allowing strangers to carry out work - these individuals are known to have left a flyer advertising 'garden services' and they prey on vulnerable people Incident ref 380-s-240217

Golden Valley Safer Neighbourhood Team (SNT) Briefing 25th February - 12th March 2017
Crime Trends **Cusop** A quantity of old flagstones that had been removed from a property undergoing renovation were stolen from the garden of the property where they were being stored. This happened sometime between 11th February and 4th March, and it is likely the theft occurred during the day Incident ref 645-s-040317

Kingstone A white Ford transit van was stolen from the side of the road by the High School overnight on Saturday 4th/Sunday 5th March. It was found later on 5th March in a car park in Llanwarne, but with false plates on. Another stolen Ford transit van, stolen from Hereford, had been spotted in the same car park by a local resident a few days earlier but had gone by the time police got there. A third stolen Ford transit van, also displaying stolen plates was found in the car park of the Axe and Cleaver at Much Birch, this van had been stolen from Malvern. Please report any vehicles parked in unusual places for a few days to 101 [Incident ref 232-s-050317](#)

Suspicious vehicles A silver Rangerover on Belgian plates **1ANS499** called at a farm just outside **Peterchurch** on Thursday 9th March, the driver was looking for 'spare diesel' as he was running low. He also said he was looking to start up a business sharpening steel. The only description was that he was a white male, and sounded foreign. The same vehicle had been recorded by police as part of a group of French travellers that had been parked on Merton Meadow car park in Hereford for a few days earlier. Please report any other sightings [Incident ref 433-s-090317](#)

Scams Another demand from the tax office landed in my work inbox the other day - I think my UK tax affairs are in order, it's news to me that I owe the US tax office now!

Dear Citizen, It is Dick Richardson, I am the tax manager of the Internal Revenue Service, Realty Tax Division. My office is responsible for informing of citizens, description of the tax system for them, supporting citizens on issues related to tax procedures, arrears, and payments, etc.

In the present case, I have to notify you that you have the significant tax arrears related to your property. To the point, there is the tax debt for your realty - the realty tax.

Usually, we ignore such delays for 4-6 months, but in your context, the overdue period comes to 7 months. Thereby, we must take relevant measures to remedy the situation.

Particularly for your convenience, our specialists have compiled the full and comprehensive report for you. It contains the full information regarding realty tax accrual, your debt (including the total amount), and the chart of overdue payments for each month of the arrears period.

Please download the report directly from the official server of the IRS, going to the link:

Please study the document as soon as possible. Actually, after receiving this message, you have only 1 day to contact your tax manager and provide them with the information you get in the report in order to resolve the problem. Otherwise, significant charges and fines may apply.

Best Regards, Dick Richardson, Realty Tax Division Internal Revenue Service

That's all for this edition, thanks for reading :-)
